## GLOBAL ISSUES AND CONCERNS ARE INCREASINGLY ON THE MINDS OF EVERYONE.

Using a variety of venues as galleries and the city's sites and streets for projects, Crunchtime2010 aims to present a snapshot of artists' responses to the issues of living in the early 21st century.

Calls have gone out around the world and artists have responded generously. Six of the artists in our exhibition programme have shown at the Venice Biennale, and we are pleased to showcase high quality work from the region and from around the world.
